## BLACK CHARGER

Stoner Rock

A little Kyuss, a little Slo Burn or Unida, and a lot of influence from the desert rock veteran Brant Bjork. These are the sources from which Black Charger draws inspiration for their music. Founded in 2018 as a pure jam project, they have developed their very own style over the time, which occasionally also drifts into psychedelic worlds.

Gitarre und Gesang: Christian Bögelmann

Bass: Stephan Zech

Schlagzeug: Uli Knost
